Budget Planner

Before you start planning a wedding, it is important for you and your fiancée to decide and **agree** on how much you would like to spend, and what percentage of the cost you would like to spend on each item. A good guide is to allocate 50% of total cost for the reception (food, band, venue), 40% for flowers, clothes, photography, video, music etc and 10% for your stationary, favours, etc
